Mr. and Mrs. Milton Oman
61 South Main
Salt Lake City, Utah 84115

Dear Mr. and Mrs. Oman:

The Office of Surface Mining (OSM) is currently reviewing the Valley Camp of Utah, Inc. permit application for the continued operation of the Belina Mines Complex, Carbon County, Utah. Included in our review of the mining operation is the evaluation of the company's plan to reclaim the permit area after mining and to establish a post-mining land use in accordance with the Utah Coal Mining and Reclamation Permanent Program, UCA 40-10-1 et seq, Section UMC 786.19(b) and (m) (please see attachment A).

The company proposes to leave as a permanent structure after mining, the existing coal haul road which provides access from the Eccles Creek road to the Belina portals (see attachment B for location of the road). The company's proposed post-mining land use is wildlife and grazing. In accordance with UMC 817.133(c) Post-mining Land Use, (attachment C) OSM is seeking the comments from the surface owners on this proposal. If you choose not to comment on this proposal, OSM may assume you accept Valley Camp's proposal and the associated impacts to your property. OSM's final decision will be based on our analysis regarding the long-term stability of the road and our judgement as to whether the road will be compatible with the proposed post-mining land use. Your comments will assure that your interests are factored into this decision.

If you have any comments on the applicant's proposal, they must be received by this office no later than two weeks from receipt of this letter. Please feel free to contact me at (303) 837-5421 if you have any questions regarding this matter.

Sincerely,

Russell F. Rice

REMARKS

Tom -
 This is a preliminary dust review of Valley Camp's November 18th submittal - went down to a dozen pages! Let me know if you'd like to discuss this.
