Dear Mr. Christensen:

Enclosed is a request from Anaconda Minerals Company to amend its 1982 Wild Horse Ridge Exploration Program on Federal leases U-020668 and U-38727. Because the original onsite was conducted via helicopter, the area in question has already been covered, making an additional onsite unnecessary. Therefore, we ask that the Forest Service please provide us with its recommendations on the adequacy of the amendment for the protection of land uses and resources.

If you have any questions, please contact Tim Abing of this office at 524-4585.

Sincerely yours,

Jackson W. Moffitt
District Mining Supervisor
