Inspection to
Coal File

RE: Soldier Creek Coal Company
Hidden Valley Mine
~~ACT/015/022~~ INA/015/007
Emery County, Utah

On April 22, 1982, Division inspectors David Lof and Ken Wyatt conducted a partial inspection of the above mentioned minesite. There were no apparent signs of recent activity at the minesite. The site appeared to be fairly stable with the exception of the high walls above the mine portals where some minor slumpage had occurred blocking some of the portals. The topsoil stockpile was showing some signs of revegetation.
