RE: Sediment Pond #3 Modification  
Utah #2 Mine  
ACT/007/014  
Carbon County, Utah

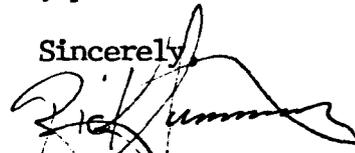

Dear Mr. Whiteside:

Please find enclosed a copy of a memo concerning the action taken on the proposed modification to sediment pond #3 at the Utah #2 loadout facility.

Approval of the modification will follow approval of the sediment pond as it is proposed in the MRP. The Division feels it is important to require that coal is not to be stored in the sediment pond and must be kept at a level greater than 7,869 feet as shown on Map C5-0028.

If you have any questions on this matter, please call.

Sincerely,

RICK SUMMERS  
RECLAMATION HYDROLOGIST
