RE: Complete Resubmittal of
MRP Addendum
Belina Complex

Folder No. 2
Carbon County, Utah

Dear Trevor:

I would like to convey the Division's appreciation for allowing a preview of newly revised maps and plans developed in conjunction with your planned resubmittal of material for the Apparent Completeness Review. Your decision to catch any overlooked details during the brief presentation in our offices on February 24th was a good one. It is apparent that Valley Camp is making every effort to meet the March 18, 1983 deadline as planned.

I would just like to take this time to add a reminder that meeting this deadline is more imperative than ever, not only to maintain the contracted review schedule, but to comply with the Office of Surface Mining's authorization for Valley Camp to continue mining federal coal in the Lower O'Conner seam. The Division understands the efforts made to complete the additions and looks forward to their final review.

Sincerely,

JAMES W. SMITH, JR.
