Re: John Bell Mine
ACT/015/009-Trail Mountain

Dear Ron:

This will acknowledge your letter of August 1, 1978, and a copy of the memo from the Fish and Wildlife Service which was forwarded at a later date. I have been advised by our Mining and Exploration Department that Utah Power has tentative plans to cover a portion of Cottonwood Creek in the locality involved, but at the present time these plans have not been firmed up. Consequently, we do not have any preliminary plans nor do we have any time schedule covering the anticipated work. Moreover, we have had some concerns expressed by the U. S. Forest Service regarding the restrictive width of the road and from various livestock users. Consequently, our tentative plans will probably be subject to adjustment.

As soon as something more definite has developed, I will get back to you.

Very truly yours,

Ralph L. Jerman
