Dear Mr. Daniels:

Pursuant to your April 20, 1983 letter proposing a civil penalty assessment for the subject violation, I respectfully request an assessment conference to be held pursuant to the violation.

The nature of the conference will be related to contest of the occurrence of the violation, and, also, the proposed assessment.

In view of the slide situation at Thistle, and pending proposed assessments on two other violations, I would appreciate your scheduling the conference for a day which would allow argument on all three violations.

I would also request the conference to be held at the offices of Valley Camp of Utah. An on-site inspection of the area of supposed violations would, I believe, allow for a more objective determination in the overall evaluation.

Thank you for your consideration in this matter.

Sincerely,

T. G. Whiteside
