RE: Truck Scale Installation
Utah #2 Loadout Area
Belina Complex
ACT/007/001, Folder #4
Carbon County, Utah

Dear Mr. Whiteside:

Reviewing your letter of November 29, 1983 concerning the truck scale loadout and the proposed deferment of placing permanent filtration units on both sides of the access road, the Division has made the following determination. The Division feels that adequate temporary sediment control is currently in place, but at the earliest possible date next spring, a Division hydrologist and Mr. Whiteside will meet on-site to discuss the final placement of filtration devices.

Thank you for your attention to this matter. If there are any questions, please contact me.

Sincerely,

A handwritten signature in cursive script that reads "Thomas Munson".

Thomas Munson
Reclamation Hydrologist
