INSPECTION REPORT COMMENTS

Permit No. Act/015/009

Inspection Date 11/4/92

Please number comments to correspond with topics on previous page.

General Comments. The permit for the Trail Mtn Mine has been transferred from Trail Mtn Coal Co. to PacifiCorp Electric Operation. (Effective 11/13/92).

No violations are currently pending.

Two Division Orders are pending and as follows:

#1: Mark disturbed area and resubmit PAP information

#2: Submit haul road plan to meet on the ground road features

Several items were suggested for the operators consideration as a general cleanup of the mine site. These included:

(a) clean rock dust adjacent to the rock dust tank

(b) clean oil/fuel/water from inside the fuel storage area

(c) dispose transformers stored near the substation

(a) and (c) were not completed by Mtn Coal; however, Mr. Payne stated they would complete the necessary work. (b) Absorbent material was installed in the fuel/oil storage area.

Dan Guy, coordinating with Val Payne will respond to the Division Orders noted above (Due Date 11/9/92)

INSPECTION REPORT COMMENTS

Permit No. Ct/015/009

Inspection Date 11/4/92

Please number comments to correspond with topics on previous page.

Signs & Markers. The operator placed additional markers on the ASCA, disturbed area lying below the sediment pond. This was a requirement of the Division Order.

Road. The road drainage together with pad drainage was observed and discussed. The haul road drainage is the subject of a Division Order. A ditch adjacent to the pad is proposed for elimination and the road and pad will be graded to haul road & pad sheet flow across the road and into the concrete road ditch.

The pad flow adjacent to dumpsters and haul road will be regraded to better accomodate runoff
