RE: Notification to Withdraw PacifiCorp's Underground Right-of-Way Application - Cottonwood Mine and Trail Mountain Mine Access, Emery County, Utah

ACT/015/009 #2
Copy to ACT/015/019 #2

Dear Mr. Morris:

On December 4, 1992, PacifiCorp submitted an application for an underground right-of-way through unleased federal coal to allow for a physical underground connection between the Cottonwood and Trail Mountain Mines.

With the recent approval by MSHA to allow two-entry mine development at the Trail Mountain Mine and our decision to utilize an overhead tube conveyor (spanning across Cottonwood Canyon) to physically connect the two mines, PacifiCorp hereby withdraws its application for the underground right-of-way.

We apologize for any inconvenience this application may have caused, and furthermore we extend our appreciation to you, your staff, the Bureau of Land Management and the Utah Division of Oil, Gas & Mining for the time and effort put forth on this application. Again, we thank you and look forward to working with you on our other projects in the area.

Sincerely,

J. Brett Harvey
