CONSOL

February 26, 1980

RECEIVED
FEB 28 1980
DIVISION OF
OIL, GAS & MINING

Mr. Ronald W. Daniels
Coordinator of Mined Land Development
DIVISION OF OIL, GAS AND MINING
1588 West North Temple
Salt Lake City, Utah 84116

Dear Ron:

Consolidation Coal Company operates the Emery Mine, located several miles south of the town of Emery, Emery County. This operation will require repermitting under the new permanent program which is now being formulated. While the mine is presently operating in private coal, existing plans require extraction of federal coal within the next several years. Since there are still questions as to the relationship between OSM and OGM with regard to mines operating on federal lands, I believe early dialogue between the state and federal agencies and Consol is required to allow efficient permit preparation.

I have set up an initial meeting with John Hardaway of OSM's technical review staff to introduce the Emery Mine Project. The meeting is scheduled for 2:00 p.m., March 4, 1980, at the OSM office in Denver.

I would like to invite you or your representative to this initial meeting and by so doing, allow a free flow of information between the three parties. I have discussed your attendance at this meeting with Mr. Hardaway and he believes it would be beneficial.

Please contact me if OGM cannot attend this meeting.

Sincerely,

Stephen E. Dole
