July 5, 1984

Mr. Trevor G. Whiteside  
Chief Engineer  
Valley Camp of Utah, Inc.  
Scofield Route  
Helper, Utah 84526

Dear Mr. Whiteside:

RE: Rechannelization of Eccles Creek Canyon, Belina Mine Complex,  
ACT/007/001, Folder No. 3, Carbon County, Utah

The Division's technical staff has reviewed the plans for rechannelization of Eccles Creek submitted to Mr. James W. Smith and received by the Division on May 31, 1984. As a result of the Division's review the following information must be provided:

1. Valley Camp must demonstrate that the reclaimed channel is capable of passing the peak flow resulting from the 100 year-24 hour precipitation event as required by UMC 817.44 (b)(2).
2. The Division requires that Valley Camp submit a timetable for riparian habitat revegetation which will be accomplished according to the techniques and methodology presented in Appendix B of Volume 3 of the Mine Permit Application.
3. The Division requires that Valley Camp immediately implement procedures to prevent additional contributions of sediment from the slide area to Eccles Creek.

Valley Camp's willingness to work with the Division of Wildlife Resources and the Division of Water Rights in regard to the rechannelization of Eccles Creek is appreciated. Valley Camp is to be commended on its quick action to repair the slide damage to the stream and protecting the aquatic habitat in Eccles Creek.

Mr. T. G. Whitesides  
July 5, 1984  
Page 2

The required information must be submitted to the Division no later than July 15, 1984. Should you have any questions please contact me or Lynn Kunzler of the Division Staff.

Sincerely,

A handwritten signature in cursive script, appearing to read "D. Wayne Hedberg".
