TO: John Whitehead, Permit Supervisor

FROM: Brent Stettler, Reclamation Biologist Brent

RE: Mid-Term Review of the Des-Bee-Dove Mine, Utah Power and Light Company, ACT/015/017, Folder #2, Emery County, Utah

UMC 817.116 Revegetation: Standards for Success-(BAS)

(c)(2) Des-Bee-Dove has neglected the following interim revegetation commitments: (1) shrub test plantings (page 4-14, 4-15); (2) annual quantitative revegetation monitoring (page 4-16); and (3) annual reporting of revegetation work (page 4-16). These omissions must be corrected.

Des-Bee-Dove must provide the Division with a report of interim revegetation work done to date. This report should include data on ground cover, species composition and frequency. The report should discuss what has been learned about plant species and planting techniques which will benefit final reclamation efforts.

Future reports must be submitted annually as stated in the PAP.
