RECEIVED
JUL 28 1980
DIVISION OF
OIL, GAS & MINING

State of Utah
Division of Oil, Gas & Mining
1588 West North Temple
Salt Lake City, Utah 84116

Gentlemen:

On May 7, 1979 the Division issued violations against the Deer Creek and Des-Bee-Dove Mines for failure to revegetate disturbed areas not used for mining (numbers 2 and 4).

We were instructed to submit a temporary vegetation plan and seed such designated areas before the winter moisture in 1979. The plan was submitted to the Division, as acknowledged in your letter dated October 3, 1979 (copy attached).

Utah Power & Light Company in late November of 1979 did seed and mulch with straw the shaded areas on the enclosed maps. The planting was less than successful, and we anticipate another seeding this fall with a follow-up seedling transplant in the spring of 1981. A full report of our updated revegetation plan is being prepared and should be ready for submittal within a few weeks.

Sincerely yours,

M. Heward

M. Heward, Manager
Mining and Exploration
