RE: NOV Abatement Plan N86-4-3-3, Submittal Dated May 9, 1986, Deer Creek Mine, Utah Power & Light, ACT/015/018, Carbon County, Utah

The May 9, 1986, submittal regarding the 1,440 sq. ft. diesel repair shop attached to the present shop and warehouse is adequate. The estimated reclamation cost for this facility is sufficient and will be added at the mid-term review.
