Mr. Scott Childs
Utah Power & Light Company
Mining Division
P. O. Box 899
Salt Lake City, Utah 84110

Dear Mr. Childs:

Re: Mine Sequence Map Request, Utah Power and Light Company, Deer Creek Mine, ACT/015/018, Folder #2, Emery County, Utah

The Division received an approved minor modification letter from the San Rafael Resource Area dated June 15, 1987 (copy attached).

The Division hereby requests a copy of the mine sequence maps for the Blind Canyon Seam that depict the panels in the BLM approval: Seventh, Eighth, and Ninth Right.

If you have any questions, please call me. Thank you.

Sincerely,

Pamela Grubaugh-Littig
Reclamation Engineer

Mr. Jim Hislop
Chief Mining Engineer
Utah Power and Light Company
Mining Division
P. O. Box 310
Huntington, Utah 84528

JUN 15 1987

Dear Mr. Hislop:

The proposal from Utah Power and Light Company for a minor modification on the approved mine plan of the Deer Creek mine, dated June 4, 1987, has been reviewed by this office.

The two modifications: 1) travelway connection between the Eighth Right and Seventh Right sections and 2) the set up entries for the Ninth Right panel at Crosscuts 37, 38, and 39 are both deemed necessary.

We want to congratulate the company on the connecting entry because of the added safety of a possible extra escapeway if needed from both the Seventh and Eighth Right panels. Due to the precaution of an extra escapeway and the encountering of a severe roll which reduced the coal height, both modifications are approved as proposed.

If there are any questions, please contact Jim Ward at 673-4584.

Note: Further modification of the approved mine plan shall be approved before the modification is started (5482.2)

Sincerely yours,

/S/ [illegible]

Acting Area Manager
