## INSPECTION REPORT COMMENTS

Permit No. ACT/015/018

Inspection Date 5/7/90

Please number comments to correspond with topics on previous page.

General Comments: The partial inspection highlighted herein was completed by Susan White and the undersigned representing the Division; Guy Davis, UP&L. Areas covered in the inspection included the mine site and the detached waste rock site.

Permit: The DOGM permit expires 2/6/91. The permit supervisor has designated August 1 as the date the operators renewal submission should be sent to the Division. The operator stated he has submitted a permit revision, however, has not received a formal approval of his proposal.

Signs & Markers: Signs & markers were observed. The operator stated they would install the ID sign at the end of the county road next to the mine site and adjacent to the new control gate currently under construction. The current ID sign is on the county road on the permit boundary.

Diversion: Some diversions were checked. The berm next to the undisturbed water seep/fen area had been beefed up.

## INSPECTION REPORT COMMENTS

Permit No. ACT/015/018

Inspection Date 5/7/90

Please number comments to correspond with topics on previous page.

The culvert & headwall below the sediment pond is in need of routine maintenance.

Sediment Pond The sediment pond contained water, the valve appears to have a small leak, and the pond was not in a discharged mode.

Road The construction and realignment of the county road to the mine access road has been completed.
