RE: ADDITION TO ABATEMENT OF NOV 90-32-6-1 AND AMENDMENT OF DEER CREEK PERMIT (ACT/015/018)

Dear Pamela:

I am enclosing an additional abatement requirement for NOV 90-32-6-1 which was brought to our attention on 2/12/91. Revised map DS202E (Packet 3-9), revised to show current existing facilities at the mine will replace the current permit map and complete the abatement requirements for this violation.

As stated in the 1/28/91 original abatement letter, a proposed amendment to the permit is requested. The amendment will include those items listed in the 1/28 letter with the exception of the newly revised map DS202E replacing the permit's current map. Upon amendment approval the revised maps and text will be implemented into the permit.

We cordially request a review of the submitted material and violation termination prior to the assessment conference date of 2/25/91.

If there are questions, please contact Guy Davis at 653-2312 or myself at 220-4584.

Sincerely,

J. Blake Webster
