RE: Water Monitoring Report
Fourth Quarter 1985 - Annual Report

Dear Mr. Braxton:

Please find enclosed "Water Quality Data" for both Surface and Ground Water Stations for the fourth quarter of 1985.

Since the enclosed reports are essentially updates of all previously submitted material, and since it is somewhat unclear at this point in time as to what exactly must be submitted by the operator in the form of an "annual" report, I would appreciate it if this submittal could be considered as the "annual" report also. In addition, the enclosed also provides data back to 1981, and could, therefore, be considered as base line data.

If you have a difference of opinion on this matter, or should you have questions concerning the enclosed, please contact me.

Sincerely,

Trevor G. Whiteside
Chief Engineer

TGW/lak
