Re: Deer Creek Portal Slide, PacifiCorp, Deer Creek Mine, ACT/015/018, Emery County, Utah

#2

PacifiCorp, by and through its wholly-owned subsidiary, Energy West Mining Company ("Energy West") as mine operator, herewith submit a notification of intent to shot-crete some of the area above the center intake portal as shown by the attached drawing. The area "B" on the drawing indicates where the new shot-crete will be applied, the area "A" depicts where shot-crete was previously applied.

REASON.
Due to a slide that occurred in "B" area as depicted on the attached drawing it will be necessary to shot-crete that area to help control any further erosion around the exposed rocks and cliff area.

DISTURBED AREA
The area to be shot-creted is within the permit disturbed boundary of the mine.

Thank you for your help and assistance in resolving this problem, if any further documentation is required please let us know.

Sincerely,

John Christensen
Construction Engineer
