Dear Mr. Boley:

On November 25, 1986, Vernon Maldonado discussed with you the initiation of a mid-term permit review of Valley Camp of Utah, Inc.'s, Belina mine and requested your comments. The mid-term permit review process is initiated by the regulatory authority pursuant to 30 CFR 774.11.

This letter is to follow-up that verbal request and to transmit the enclosed Utah Division of Oil, Gas, & Mining's (DOGM's) October 6, 1986, letter to Walter Wright requiring revisions to the permit application package on file. The permittee has not yet submitted new materials in response to Utah DOGM's letter. A copy of materials submitted by the permittee will be forwarded to you when they are received.

Please provide any comments on matters within your jurisdiction to the Office of Surface Mining Reclamation and Enforcement, Western Field Operations (WFO). WFO will serve as the coordinating agency for Federal agencies involved in the mid-term review process and convey all Federal agency concerns to Utah DOGM.

If you have any questions, please contact Vernon Maldonado or Richard Holbrook at (303) 844-2451 or FTS 564-2451.

Sincerely,

Ranvir Singh
