RE: UTAH POWER & LIGHT SEDIMENT PONDS FOR WILBERG MINE

Dear Mr. Thompson:

This letter will acknowledge receipt on December 31, 1979, of those documents transmitted to you by Utah Power & Light on December 13, 1979, concerning the construction of the above-mentioned project. It is my understanding that the project was constructed without approval from the Division of Oil, Gas and Mining or this office. My correspondence indicates that both the owner and design engineers were informed that approval would be required.

I am not going to order breaching of the structure, but it is my opinion that construction proceeded without a total knowledge of the construction materials.

If you have any questions, feel free to call on me or Mr. Bob Morgan of my staff.

Yours truly,

Dee C. Hansen
