RE: Old Fan Access Road
Approval for Reclamation
Wilberg Mine
ACT/015/019
Folder Nos. 4 and 14
Emery County, Utah

Dear Larry:

Pursuant to the Division's November 2, 1982 letter regarding the reclamation of the old fan access road, approval is given to perform this reclamation (as modified herein) on the old fan access road at the Wilberg Mine. The reclamation will consist of bringing in equipment on the upper part of the road and reestablishing the drainage. The large rock now in the drainage will be moved. Steep cuts on the sides of this main drainage will be redefined and the main drainage will be reconfigured as outlined in the original plan (1v:2h). The side drainage that has cut the road will be diverted into the main drainage and will be riprapped. The access road and main drainage below the side drainage will be hand-repaired with cuts being gently sloped and road check dams made as needed.

The entire old fan access road area will be reseeded with the seed mix in the original plan.

This reclamation should be done as soon as possible.

If you have any comments, please call me.

Sincerely,

Pamela Grubaugh-Littig

PAMELA GRUBAUGH-LITTIG
