Subject: Wilberg/Cottonwood Mine
Eagle Monitoring Study

Dear Mr. Braxton:

In accordance with the conditional approval granted by letter dated June 25, 1986, we submit 10 copies of a map depicting the control area associated with the raptor monitoring study in Newberry Canyon.

The control area consists of an escarpment situated beyond the predictable subsidence limits.

Company commits to the condition that no subsidence causing mining will occur beneath the designated control area before the study is completed.

Sincerely,

C. E. Shingleton
