Re: Surface Facilities Map Update, NOV N91-32-3-1
PacifiCorp Electric Operations, Cottonwood Mine, ACT/015/019, Emery County, Utah

Dear Ms. Littig:

This is to confirm our conversation of July 3 regarding update of the surface facilities map following installation of the strawbale/gravel filter. Installation of the filter is currently underway. This installation was an abatement requirement of NOV N91-32-3-1. Your approval letter dated June 6, 1991 indicated that a revised surface facilities map must be submitted by June 28, 1991. Construction of the filter did not begin until after this date.

With your approval, we will submit an updated surface facilities map reflecting addition of the gravel filter after construction is completed. Thank you for your consideration. We look forward to your response.

Respectfully,

J. Blake Webster
