August 13, 1986

Mr. T. G. Whiteside
Chief Engineer
Valley Camp of Utah, Inc.
Scofield Route
Helper, Utah 84526

Dear Mr. Whiteside:

Re: Approval of MRP Amendment, Cleanout of Sedimentation Pond #4,
Valley Camp of Utah, Belina #1 Mine, ACT/007/001-86, Carbon
County, Utah

The application for an MRP Permit Amendment submitted by Valley Camp of Utah, Inc. on June 27, 1986 has been reviewed by the Division. The proposed plans are acceptable and approval is hereby granted by the Division to proceed with implementation. In the event of an emergency need to decant the sediment pond during the cleanout process the operator must notify the Division immediately and sample the discharge at the commencement, the midpoint, and the end of the decant period for total suspended solids (TSS), oil and grease, settleable solids (SS), and total dissolved solids (TDS).

If possible, please forward 12 additional copies of the approved plans to the Division by August 21, 1986. These will be transmitted to the proper regulatory agencies to update their files.

Thank you for your patience and cooperation in this matter. Please contact me or Rick Summers should you have any questions.

Sincerely,

A handwritten signature in cursive script that reads "D. Wayne Hedberg".

D. Wayne Hedberg
Permit Supervisor/
Reclamation Hydrologist
