Re: Change of Status
Belina No. 2 Mine

Dear Mr. Braxton:

Since April 13, 1983, the Belina No. 2 Mine has been on "standby-ready" status. Future production requirements necessitate the revision of that status to "active-producing".

In preparation for obtaining this status change from the Mine Safety and Health Administration, updated plans, as required by 30 CFR 75.1721, are being submitted to that agency for review and approval.

[Handwritten mark]

Please be aware that we are anticipating production from this mine to begin about the last week of May, 1987.

Please contact me if you have questions concerning our intentions.

Sincerely,

T. G. Whiteside
T. G. Whiteside
Chief Engineer

Sue - Please have Randy (or who ever you suggest) review the appropriate regs for conversion to active status. After review a letter of acknowledgement should be sent to VCCC under my signature. Please have the reviewer draft or outline for me. Hwy LPH
