Good morning,

Based on the most recent snow report from folks down in Emery County, we're postponing the CWW bond release inspection and Rilda Canyon meeting scheduled for next Wednesday the 27th.

Earlier in the week, it sounded like we'd be on solid ground (figuratively and literally) for our site visits, but apparently the snowfall yesterday was rather significant and so we'll need to re-schedule the meetings.

I'll get some dates out to everyone first thing next week and we'll get something scheduled for next month.

Regards,
Steve
