Pete,
Attached is a draft response to your deficiencies for Task No. 2597.

We have addressed all DOGM deficiencies and are now currently working on the Forest Service comments and final cosmetic touches to the official response. Over the course of the next two days I will be emailing all of the reviewers draft responses to their deficiencies.

In regards to the snow storage ASCA's, I emailed Jim a worksheet for him to review. Once he responds to my email it will take less then 1 day to finalize that amendment and have it mailed out. I will also email copies. Hopefully if Jim has time to review my worksheet we can get that taken care of this week.
