Kirk and Priscilla,

Thank you for your telephone calls letting us know about the use of BLM Route 117 in the reconstruction of nearby roads on private land. Based on the preliminary information you provided, this activity appears to qualify as casual use and would not require a right-of-way or other authorization.

I would like to follow up with a formal letter to Kirk with a courtesy copy to Priscilla discussing this in greater detail. I have a mailing address for Priscilla, but not for Kirk. First chance you get, will you please forward a mailing address to me?

I will likely visit the site sometime as early as next week to confirm that there are no issues associated with this use. If I do find anything of concern, I will be back in touch to get your assistance to help correct any problems we may find.

Otherwise, I think we are good for the moment. I hope this information is useful. Please let me know if you have questions.

Regards,

Mark
