Kirk,
Under R645-401-600 you have 15 days from the date of service of a Notice of Violation in which to submit information relevant to the violation. For violation #21193 the period has past. If you want to appeal the proposed assessment the appropriate venue to do so is through an assessment conference. In the past we did allow some violations to be reassessed without the conference, but those were exceptions allowed because of the learning curve associated with the assessment process. We now have a new assessment officer and I feel he has tried to be fair with the proposed assessment. At this point I am not inclined to change the proposed penalty. You can still ask for an assessment conference if you are so inclined. Thanks. Daron
