Dear Ms. Linner:

Valley Camp of Utah hereby requests an extension of the September 30 deadline for providing the results of analysis of soil samples taken from Ponds 002 and 003. These samples were taken for evaluation of the stability of the slopes of these ponds. I have been in contact with the consultant we hired to collect and analyze the samples. The consultant informed me that the analysis is being performed now and that it should be complete by October 14. In order to give us time to receive the results and forward them to you, an extension to October 19 is requested.

Very truly yours,

Barry Barnum
