Dear Dr. Nielson:

The Office of Surface Mining (OSM) is currently reviewing permit applications for compliance with section 510(c) of the Surface Mining Control and Reclamation Act of 1977 (SMCRA) pursuant to a recent court ruling.

During review of the Genwal Crandall Canyon and SUFCO Convulsion Canyon applications, OSM staff members did not find explicit statements listing other names used by the applicant as required by UMC 782.13(b)(3). Additionally, a list of violations was provided by Genwal for the Crandall Canyon lease only. It is unclear whether Genwal has other operations under its name. All violations should be listed for all of Genwal's coal mining operations as required by UMC 782.14(c).

Please submit the requested information as soon as possible so that the review package can be sent to the OSM Headquarters office for processing.

If you have any questions, please call Rick Lawton or Rick Holbrook of this office at (303) 844-3806 or FTS 564-3806.

Sincerely,

Richard E. Dawes
