OIL, GAS & MINING

December 21, 1990

Mr. Michael Reed
U.S. Environmental Protection Agency
Water Management Division (8WM-C)
1 Denver Place, Suite 500
999 - 18th Street
Denver, Colorado 80202-2413

Dear Mr. Reed:

In accordance with the conditions of NPDES Discharge Permit UT-0023540, Part II - A-2 and Utah Mining Code Section 817.52(b)(i)(ii), Utah Fuel Company is herewith providing the required written notification of a failure to comply with the maximum effluent limitation for TDS and for oil and grease at the 001 discharge point.

The problem occurred with the sample taken November 29, 1990, which had a TDS concentration of 1034 mg/l. This concentration exceeds the 1000 mg/l daily maximum limitation established in the current NPDES discharge permit. The oil and grease concentration was 19.5 mg/L, which exceeds the discharge limitation of 10 mg/L. The laboratory report was received on December 17, 1990.

Sincerely,

Keith W. Welch
