April 18, 1991

Mr. Ken Payne, General Manager
Southern Utah Fuel Company
P. O. Box P
Salina, Utah 84654

Dear Mr. Payne:

Re: Conditional Approval, New Substation Amendment, Southern Utah Fuel Company, Convulsion Canyon Mine, ACT/041/002-90F, Folder #3, Carbon County, Utah

The Division has completed review of your November 9, 1990 and February 19, 1991 submittals regarding the above-referenced amendment.

Approval to construct the substation is hereby given, provided that the conditions outlined below are met.

1) The existing trail used for trailing cattle through the area must not be blocked. Provisions for providing access from Convulsion Canyon to East Spring Canyon must be provided and shown on accompanying maps.

2) Provisions to protect stockpiled topsoil from wind and water erosion, unnecessary compaction, and contamination by undesirable materials must be incorporated into the plan.

3) Finished grade elevations and containment berms, must be configured so that drainage from the substation pad area will report to the parking lot area and then to the concrete catchment basin on the main pad area. Maps should be revised to reflect the correct elevations.

Please provide the above information by May 20, 1991. If you have any questions please call Randy Harden or me.

Sincerely,

Daron R. Haddock

Daron Haddock
Permit Supervisor
