Re: Sediment Control Measures for Disturbed Coal Mine Lands

Dear Mr. Braxton:

Attached are DOGM Form C-1 and C-2 for a revision to a permit amendment to establish the Alternate Sediment Control and Small Area Exemptions concerning the latest Coal Regulatory Program Directive of Sediment Control Measures for Disturbed Coal Mine Lands that was originally submitted to Mr. Hess on May 15, 1995. Mr. Hess has requested that the amendment be revised by adding a calculation concerning surface water that is routed into the mine at three of SUFCO's remote portal sites for treatment and that the amendment be submitted directly to the Salt Lake City Office.

We have reviewed the new directive and have revised pages 7-59, 7-70, 7-71 and 7-72 in Section 7.4.2 Sediment Control Measures and have shown the changes on Plate 5-2B Extended East Spring Canyon Surface Facilities. We have added a new Appendix 7-16 for Small Area Exemption Demonstration Calculations in Volume 10.

We have also renumbered all the pages in Chapter 7 from Page 7-6 to 7-89 to remove all the old redline and strikeout and extra pages inserted from previous amendments into the M&RP. We feel this will help eliminate any confusion and will make the M&RP easier to read.

Enclosed are fourteen copies of the amendment. Please approve these revisions to the M&RP. If you have any questions or need additional information, please contact Wess Sorensen or Mike Davis at (801) 637-4880.

Sincerely,
SOUTHERN UTAH FUEL COMPANY
