RE: Submittal of Valley Camp Sediment Pond Report.

Dear Mr. Summers:

At the request of Valley Camp of Utah, Inc. submitted herewith are two copies of the report entitled "Analysis of Sediment Pond Design and Hydrologic Analysis of Undisturbed Area Bypass Channels and Small Exemption Areas." This report presents our analysis of the design of Valley Camp's four existing sediment ponds and presents our recommendations to bring the ponds in compliance with design standards listed in the report required by the State regulations.

We have attempted to make the changes that we discussed following your review of the rough draft of the report. If you have any questions regarding the information contained in the report, please call.

Sincerely,

Marvin E. Allen, P.E.
President
