January 29, 1985

TO: Coal File, Inspection and Enforcement

FROM: Barton Kale, Mining Field Specialist BOK

RE: Utah Coal and Energy, Blackhawk Mine, INA/043/001, Folder #7, Summit County, Utah

A partial inspection was conducted at the above mentioned mine site on January 23, 1985 by Barton Kale of the Division. During the inspection of the proposed Boyer Mine across the road, it was noted that vehicle tracks were imprinted in the snow leading from the gate to the mine yard. The gate was locked, and due to time limitations, no further investigation was made. A light snowfall the night before dusted the tracks so it was obvious that access had not been within the last twenty-four hours.
