RE: Quartzite Quarry
Roudabush #1 Mine
Tooele County, Utah
DOE/045/~~012~~ 013

Dear Mr. Jones:

The Division has given a cursory review to the Mining and Reclamation Plan submitted by General Refractories Company for the Roudabush #1 Mine and has determined that this operation qualifies as a D.O.E. because of the limited area under two acres. As such, the Division will not complete a review at this time nor will we attempt to qualify the Roudabush #1 operation for the performance standards of the Act.

If in the future, General Refractories Company requires either moving more than 500 tons of material or disturbing more than two acres in a twelve month period, then the Division should be notified of such change in status of the operation.

I hope this is helpful to you. If you have any questions, please contact me.

Sincerely,

for THOMAS J. SUCHOSKI
ENGINEERING GEOLOGIST
