CHANGE IN FILE STATUS
APPROVAL FORM

DATE 5-10-88

CURRENT FILE NO. DOE/047/010

RECOMMENDED FILE NO. CLOSED AND DOE/047/021

COMPANY AND MINE NAME Wayne Bittleston, ML 39177

REASON FOR CHANGE IN FILE STATUS

Wayne Bittleston worked state mineral lease 39177 in the early 1980's. Approximately five acres of placer workings were left unreclaimed. It is unknown if Bittleston was responsible for the entire area or if someone else worked the area previously.

In the fall of 1984 the lease was reassigned to A. Gibby and D. Ward (DOE/047/021). They have not done any work in this area to date.

Wayne Bittleston has since died. It is recommended that the DOE/047/010 file contents be placed into DOE/047/021 and the file number DOE/047/010 be retired.

Hopefully the area will be mined again and the area reclaimed in the process.
