Wayne - FYI.

SUBJECT: Finding of No Significant Environmental Impact and Necessary Environmental Findings for Pearl Queen Perlite Corporation Project to construct perlite mining, processing, loadout and microsphere facilities 52-001-0870533736

TO: Project File

The Environmental Assessment has been completed for the subject proposal by the Rural Development environmental reviewer. After reviewing the assessment and the supporting materials attached to it, I find that the subject proposal will not significantly affect the quality of the human environment. Therefore, the preparation of an environmental impact statement is not necessary.

I also find that the assessment properly documents the proposal's status of compliance with environmental laws and requirements listed therein.

A. RICHARD OSMOND
Director, Business/Community Programs
