Dear Mr. Wright:

RE: Schedule for Submittal of Updated Mining and Reclamation Plan,  
Belina Complex, ACT/007/001, Folder #2 and 5, Carbon County, Utah

On May 18, 1989, Susan Linner and myself met with Steve Tanner and draftsman Ed Sanderson, representing Valley Camp, in the Division offices. The Division's letter of May 3, 1989, requiring submittal of a complete and updated Mining and Reclamation Plan (MRP), and abatement requirements of NOV N89-12-1-1 were discussed.

Mr. Tanner and Mr. Sanderson outlined the organization of the plans and maps to be submitted, and discussed the amount of work needing to be done and time frames required.

Division personnel discussed the fact that a complete plan needed to be on file prior to permit expiration and that a schedule for submittal of this plan needed to be agreed upon in order to extend the NOV beyond the June 6, 1989 abatement date.

The following schedule was agreed upon as meeting the needs of both parties:

<u>Sections to be Submitted</u>	<u>Submittal Date</u>	<u>Review Date</u>
R-614-100 through 400	June 30, 1989	July 31, 1989
R-614-500 Outline R-614-600 and 700	July 31, 1989	August 21, 1989
R-614-500 and 800	September 29, 1989	December 1, 1989

May 25, 1989  
Mr. Walter Wright  
ACT/007/001

Adherence to this schedule by both the Division and Valley Camp will allow a Determination of Completeness on the MRP to be made prior to the permit expiration date of August 24, 1989. Publication for permit renewal can then be initiated. A new permit would be issued before the end of the year.

We appreciate you and your staff's willingness to work closely with the Division to meet this schedule. If this is an accurate representation of the agreement that was reached please sign the signature line below and return a copy to us. NOV N89-12-1-1 will be modified to reflect this schedule.

Please contact me if I can provide any assistance.

Sincerely,

*Lowell P. Braxton*
