Dear Mr. Hedberg;

Please find enclosed an updated map showing areas of activity for 1994. Due to a sluggish mining economy our activities for 1995 are at a stand still. However we will submit our annual report of mining operations for 1995 at the end of the year as required. As you know, Milford Valley is experiencing renewed interest in land for agricultural purposes, chiefly hog farm operations. Over 50 square miles have been acquired for proposed hog farm sites and numerous landholders such as ourselves are currently considering non-mining uses of patented lands to generate income and pay taxes.

Also we are informing your staff that due to a trespass on posted property and entrance through or around a locked cable/gate on March 23, 1995 that no inspections or visitations will be allowed unless accompanied by the property owners. Respect for private property, especially when it's posted is highly regarded as an "American Experience". Please feel free to contact us if you have any questions concerning our activities or wish to make an inspection.
