RE: ML 41353

Dear Ms. Bradshaw:

Thank you for coming in to see me last Tuesday to clarify requirements for maintaining your state leases. I understand that as soon as weather permits you will prepare and submit the mine maps which I have requested.

This letter will acknowledge your recent effort to secure the required plan of operation for ML 41353. The lease may be extended beyond April 30, 1995, providing that you continue to diligently pursue the required plan of operation for the lease.

The required annual lease payment for ML 41353, due May 1, 1995, is $320. Please submit your payment by return mail if you have not already made payment.

Sincerely,

JOHN T. BLAKE
MINERAL RESOURCES SPECIALIST

Subject: Bradshaw Pumice & Perlite

I am doing a royalty review on three state leases that are being mined for pumice and perlite. The legal desriptions are as follows: T28S,R9W, Sec. 2: Lot 1; T27S, R9W, Sec. 36: W2SW4; and T27S, R9W, Sec. 36: W2NW4.

The Bradshaws subleased the mining operations to Mountain View Mining and later Pure White Pumice. They have not exactly submitted documents to us in a timely fashion, or submitted them at all for that matter. Mountain View Mining said they removed material from the leases a couple of years ago and submitted production documentation to the state, however, we can't find anything in our files.

Would you happen to have any information of the mining that has gone on? If so, please let me know, I'd love to take a look at it.

Thanks.
