Mr. Steve Tanner
Valley Camp of Utah, Inc.
Scofield Route
Helper, Utah 84526

Dear Mr. Tanner:

Enclosed are water quality data tabulations for all water quality samples collected to date for Valley Camp's Belina Mine and VALCAM Loadout Facility.

During April an attempt was made to collect a water quality sample from each of the surface and ground water monitoring sites. Due to snow cover only the six surface water samples were collected. All seven of the groundwater monitoring sites were inaccessible.

As you requested, a copy of this data is being sent to Darren Haddock at the Utah Division of Oil, Gas and Mining.

Sincerely,

Jerry V. Hansen

Enclosure
