Mr. Darron Haddock
Permit Supervisor
Department of Natural Resources
Division of Oil, Gas & Mining
3 Triad Center
Suite 350
Salt Lake City, Utah 84180-1203

Dear Mr. Haddock:

Valley Camp of Utah, Inc. respectfully requests the Division to allow the Mine Permit Renewal to serve as the 1989 Annual Summary.

It is our position that the Annual Summary would be confusing and redundant at this point in time, as revisions to the maps, subsidence monitoring, visual movement indicators, etc. have been ongoing throughout 1989 and 1990.

Your consideration on this matter is greatly appreciated.

Sincerely,

Steven K. Tanner
