In consideration of the Conference call Held 3:10 PM on July 19 2002 Pertaining to operations for the 2002 Season: It is our Intent at Gold Star Stone to commence reclamation on the old east pit that was quarried by I believe Bill Hamm, Then Ernie Ray Hale, Keith McKay and Lone Pine Quarries, and in 1999 for a 2 month Period By Gold Star Stone there is a fair amount of disturbance in the east Quarry. Gold Star will Pull up with the 245 Cat Excavator what it can on the waste dump back into the Quarry Pit, the top ledge debris will be Pushed down into the Pit thus Reducing the high wall situation that exits on that Quarry site. David Rysak will be retained to do additional maping to Revise our Current Plan of Operation. Gold Star Stone shall also through its Banking Institution DL Evans Put in Place a $10,000 Bond to allow continued use of the South Quarry of Lone Pine where it has been Quarrying since 1999. the area of disturbance is Right at or just over the five acres Small mining Permit

this CD shall be done in an expeditious manner as as soon as is possible given the fact that there are other People Involved beyond My Control (ie) the Bank Personel and the State of Utah. Gold Star has in an account at D L Evans monies to satisfy these conditions as set forth in our conversation and will do all in our Power to help in the Process.

Respectfully yours.
Bruce Mitchell
