Dear Steve:

Enclosed are updates of all water quality data collected through July 23, 1990 for the Belina and VALCAM facilities. All monitoring sites were accessible in July and a water quality sample was collected at each site.

All sites were also visited during August. The field tested parameters have been tabulated but the laboratory test results have not been received yet. As the laboratory analyses are received these data tabulations will be updated and sent to you.

As you have requested a copy of these tabulations are begin sent to Mr. Darren Haddock at the Utah State Division of Oil, Gas and Mining.

Sincerely,

Jerry Hansen
