Dear Sirs:

I wish to perform exploration and some trenching in our greenstone claims and also on our A.B. # 1 claim please refer to U.M.C # 336067 & 336069.

We will be doing some drilling as well as sampling, and we likely will not disturbe more than 1 acre at each site.

Equiptment will be a small air compressor and a rubber tired backhoe.

We appreciate the prompt service your office has given us in the past and we find the personel to be most helpful.

Sincerely.
