TO: File

FROM: Daron Haddock, Permit Supervisor

RE: Technical Deficiency Review, Valley Camp of Utah, Belina Mine, ACT/007/001, Folder #2, Carbon County, Utah

R614-301-112.500 thru 301-112.600 Identification of Interests

Discrepancies exist between the surface and coal ownership maps and the address listing of surface and coal owners. The surface ownership map shows L & L Agri Business, Larry and Iva Baer, Clegg, and the State of Utah as surface owners of the permitted land or land contiguous to the permit area, but these owners are omitted from the address list. The coal ownership map shows Stagstead Inc., McKinnon, and State of Utah as coal owners, but these owners are omitted from the address list. Other entities are owners of surface or coal which may also be affected by the mining operation.

A complete listing of coal and surface owners and their addresses must be submitted.

R614-301-113.300

A complete list of violations was supplied for the Valley Camp of Utah mine, however, violations at affiliated mining or reclamation operations are not listed. A complete listing of violation notices at any subsidiary or affiliated coal mining or reclamation operation should also be submitted.

R614-301-117.100

Although the submittal states that the operator has liability insurance and lists the policies, no certificate of insurance is included. A certificate of liability insurance must be submitted.
